(54) DEVICE FOR REPRODUCING RECORDING  
MEDIUM

(57) Abstract:

**PURPOSE:** To impart a higher game feeling to a user by deciding a selection music number to be reproduced successively by a random number generation means.

**CONSTITUTION:** When a play button in a switch part 33 is pushed, a pulse signal is generated from a pulse generation circuit 35, and a counter 36 starts counting. The counter output from the counter circuit 36 is supplied to respective first to third latch circuits 37a, 37b, 37c, and a random number is received by the latch circuits 37a, 37b, 37c according to pushing timing by pushing successively a stop button in the switch part 33. When at least the same values data of two or more among the received random numbers exist, a playing music number stored in a recording medium (CD) is decided based on the data, and is reproduced.
